Chief Hicks said that he would prepare the notice of separation and appointment documents necessary for the class when he receives Mr. Starcavich's doctor's note to take the power test.

Chief Hicks informed the Board that he has a schedule made for the officers on duty and every weekend is covered.

Bryce Frenell present expressing his interest in being on the Village's police department, but would need the power test and class to become an officer. The Board stated that he would have to pay for the test and class, and Mr. Frenell stated that he was not able to do that at this time, but he had applied at East Moline and done the physical and agility tests and written test and will know by November 9, 2015 if he makes it into the top 20 applicants. The Board would like more details about East Moline when Bryce gets them.

President Peterson reported that the stop signs are in and need to go up, and Mr. Fowler of the Township had told him that Mercer County said IDOT is bringing the sign program back after two years. President Peterson said that the Village could pay Mr. Fowler through the Township to put up the signs or ask Trustee Whiting about an auger to put them in.

President Peterson reported that the maintenance department is preparing the snow fence and snow plow. He stated that the snow plow blade has the new rubber molding on, and the Village has two used ones. He also stated that Jack Cooper would be on the maintenance department this month to

President Peterson reported that there was no information on the CDAP grant, and the water and sewer rates are on hold, since engineer Kammerman said there is plenty of time for that.

Village Attorney Steele present and stated that that he went through each easement for the sewer system and found typos and incorrect readings. He said Missman Engineers were going to redo the nine or ten that need corrections, then the Village will have to have them resigned and recorded again. He stated that Scott Kammerman is working on them and the USDA understands what is going on, and even though the date of October 1, 2015 was needed for the easements, the USDA is not pressing for the information. Attorney Steele also stated that if a new owner takes over a property, the easement needs to be redone. He will get the revised easements from Scott Kammerman.

Attorney Steel stated that in his legal opinion he must certify that the owner of the property where there will be an easement is the actual owner, and Mercer County has their own track index, and Joanie of the Mercer County Title Company could do it much faster and cheaper than he could. The cost would be \$75 each, and the Village would have to record the easements.

Motion by Kness, second by Devlin to retain Mercer County Title Company to search the twenty-five ownerships on the Village's sewer easements at a accost of \$1,875. Roll call votes: Loving – aye, Devlin –aye, Willems – aye, and Kness – aye. All votes were in favor, and the motion was carried.

Attorney Steele reported that he had a couple responses to his broadcast letter on bond companies, and the bonds will be purchased by the USDA for the funding of the sewer project. He stated that the range was \$9,500 to \$12,500, but will wait until more are in.

Attorney Steele presented the idea of changing the Village's name from Windsor to New Windsor, but first he would check if this is a problem and only an issue with the sewer funding, since there is a Windsor in Shelby County, Illinois.
